The Delia is the premier wheat growing district of the province, at least this year, a bonus out by the yields recorded and the quantity of wheat being marketed. As an instance of some of the yields C. Ruff, on his farm a few miles north of Delia, is receiving 45 bushels to the acre.

Already 120,000 bushels of wheat have been marketed at the local elevators. As yet by the greater portion to still on the farm.

Given favorable weather for the next few days (showing of wind) will be practically certain to yield a bumper crop.

Those who are expected to judge from the amount of grain to be marketed this year at Delia are nearly the million mark, provided the railway company can carry it away quickly enough to allow the elevator companies to handle it.

A few cars have already been shipped west. More will have gone had the railway provided cars.

The Philosophy of Life

Did it ever occur to you that a man's life is full of crises and temptations? His course into this world without his compass and his map is a tremendously rocky. The rule of contraries is one of the features of life.

When he is little the big girls kiss him; when he is big the little girls kiss him.

If he is poor, he is a bad manager; if he is rich, he is a dissolute. If he is a miser, he can't get on; if he is a spendthrift, even more so.

If he is in politics, he is a graft; if he is out of politics, he is an agent to his country.

If he does not give to his country, he is a stingy man; if he does it in free doses.

If he is actively religious, he is a hypocrite; if he takes no interest in religion, he is a hardened sinner.

If he gives affection, he is a soft sinner; if he cares for no one, he is cold-blooded.

If he dies young, there was a splendid future for him; if he lives to an old age, he missed his calling.

Soldiers Settling on the Land

Over \$25,000.00 have been loaned by the Dominion Settlement Board to returned soldiers up to July 31st. There were 7,000 individual loans approved by the board and 1,600 refused.
